

The Long-Range Plan for Our Saviour School for 2015-2020 has been submitted to the Tracy Family Foundation by the Alliance for Catholic Education. We greatly appreciate the involvement parishioners, parents, staff, and volunteers gave to this initiative. The plan includes four domains: Catholic Identity, Academic Excellence, Enrollment and Marketing, and Finance.

The goals under **Catholic Identity** focus on:

- To increase emphasis and focus on Our Saviour School's Catholic identity within the school
- To increase student witness and service in the broader community
- To enhance Our Saviour School's outreach to and communication with Routt Catholic High School

The goals under **Academic Excellence** include:

- To ensure a high quality academic program for all students
- To develop and implement an integrated curriculum across all grade levels
- To increase professional requirements and opportunities for all teachers and
- To establish a pre-school program

The goals under **Enrollment and Marketing** focus on:

- To increase Our Saviour School's enrollment by 5% each year over the next 5 years.
- To formalize and expand Our Saviour School's marketing program and initiatives.

The goals under **Finance** include:

- To develop a five year financial plan that will support the current and future school programs
- To expand current school facilities to meet the school's educational program needs and accommodate future enrollment

Objectives and action steps have been created to lead us in meeting these goals. Please keep us in your prayers as we continue to move forward in meeting these initiatives within the school, parish, and community.
